Experience

Grovix Technologies

July 2026 – Present

Full Stack Developer Intern

Remote

- Building a scalable **Learning Management System (LMS)** using **Next.js**, **Express.js**, **MongoDB** and Tailwind CSS with secure REST APIs and NextAuth
- Developing role-based Admin/Student dashboards with course management, coding assessments, certificates and an integrated LeetCode-style compiler.

Renovatio Foundation

Jul 2025 – Sep 2025

Full Stack Web Developer Intern

Hybrid

- Built the NGO's complete **MERN** platform from scratch with JWT authentication, RBAC and scalable REST APIs.
- Developed Admin/Volunteer dashboards with Cloudinary uploads and geofencing-based attendance verification.
- Integrated **Cloudinary** media storage and **geofencing-based attendance verification** to enable location-validated volunteer submissions.

GeeksforGeeks Campus Body, RBU

Aug 2025 – Present

Technical Team Lead (Web Development)

Nagpur, India

- Engineered full-stack platforms for flagship coding events including **ByteQuest** with **2,173+** registrations.
- Developed a Stranger Things-themed competitive coding platform with WebSockets, compiler integration and live leaderboard featuring **100+ teams**

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++
Frontend: Next.js, React, Tailwind CSS, ShadcnUI, Framer Motion
Backend: Node.js, Express.js, GraphQL, Socket.io
Databases & Caching: MongoDB, PostgreSQL, Redis
Tools & Deployment: Git, GitHub, Docker, Postman, Railway, AWS

Projects

Peafowl (Live) | *Next.js, Express, TypeScript, Prisma, PostgreSQL, Socket.io, Redis, Docker*

May 2026

- Built a **scalable real-time chat platform** using Socket.io and **Redis Streams** for distributed event handling and online presence tracking. Built for developer-focused realtime collaboration; Containerized services using Docker for reproducible local development and deployment on my self hosted VPS.
- Used Discord style channels & rooms with typing indicators and **encrypted messaging with AES-GCM**

RentiGO (Live) | *Next.js, Tailwind CSS, Clerk, Leaflet, Cloudinary, Razorpay*

March 2026

- Built a peer-to-peer rental marketplace with realtime communication between buyers and lenders using websockets. blend Leaflet geospatial search and UPI payments using **Razorpay payments**.
- Secured **Top 10** among **500+ teams** in KWARGS Group Hackathon 2026.

Live Legal (Live) | *React, Express.js, RAG, Claude AI, Clerk, TypeScript, ElevenLabs*

February 2026

- Built an **AI-powered legal document analysis platform** using a **Python RAG microservice** for contextual retrieval and summarization of legal documents.
- Integrated **k-means clustering based chunk filtering** to improve top-k retrieval relevance before passing context into Claude AI for response generation.
- Designed a modular full-stack architecture with **Clerk authentication**, document uploads using multer, AI-assisted guidance and talkback using elevenlabs api

Education

Ramdeobaba University — CGPA: 8.3

June. 2024 – Present

Bachelor of Technology in Computer Science (Artificial Intelligence & Data Science)

Nagpur, Maharashtra

Leadership / Extracurricular

Advantage Vidarbha 2026 – MERN+IoT Innovation Pitch & Patent display

2026

Shortlisted Finalist & Patent Applicant

Nagpur, Maharashtra

- pitched a hybrid IoT + MERN platform for NGOs and colleges, providing proxy proof attendance system to **600+ attendees**; Combined ESP32 with Node.js backend for real-time sensor communication via REST apis
- Filed and Granted a utility patent for the IoT hardware architecture and system model under **IPO:202621063235**
